MŰEGYETEM 1782

REQUEST

to diverge from the rules of taking BSc Project Laboratory or BSc Thesis Project

At the Faculty of Electrical Engineering and Informatics, students can complete their Project Laboratory or Thesis Project only at a department that takes part in teaching their specialization subjects. In exceptional cases, excellent students may be allowed to choose a project/thesis topic offered by a department not involved in their specialized education. To ask for consent, this form should be filled in and submitted to the programme director.

Student's name: Akito Yamaguchi.....

Neptun code: IXF6DR .....**Email:** akito.ky.120@gmail.com .....

Tel. No.: +36206241977.....**Study programme:** Bachelor of Science Degree Program in Software Engineering.....

Subject (*please underline*)**:** Project Laboratory / Thesis Project

Specialization: Software Engineering .....

Original department: Department of Automation and Applied Informatics.....

Department offering the topic: Department of Networked Systems and Services.....

Supervisor: Solymos Balázs.....

Supervisor's signature: .....

Topic: Simulating Framework for Comparing Surface Codes .....

.....

.....

Reason for choosing the topic: Since taking a course on quantum computing, I've become interested in the topic of quantum error correction. Through my own independent study, I encountered the depth of the topic of surface codes, and this led me to want to pursue research in this field. Over the summer, I contacted my supervisor and have already begun research comparing different surface codes. I would like to continue this research and make it the subject of my thesis project. .....
